Figure 18: SAP Note Assistant

From January 1, 2020, the download and upload process will stop working unless Note Assistant, transaction `SNOTE` is enabled in ABAP systems to work with digitally signed SAP Notes. Learn more about actions required from your side on the SAP Support Portal page for Digitally Signed SAP Notes. To understand the overall impact of the SAP Support Backbone update, refer to SAP Support Portal. Check <https://support.sap.com/en/my-support/knowledge-base/note-assistant.html> and <https://support.sap.com/en/release-upgrade-maintenance/maintenance-information/connectivity-to-sap.html>

Note:

For digitally signed SAP Notes check SAP Notes [2408073 - Handling of Digitally Signed notes in SAP Note Assistant](#) and [2537133 - FAQ - Digitally Signed SAP Notes](#)

Hint:

The SAP Note Assistant cannot implement all error corrections.

Note:

The SAP Solution Manager system includes the system recommendations, which helps you manage the SAP Notes that have not yet been implemented or installed in the systems you manage. You can start this from the SAP Solution Manager Launchpad (transaction `SM_WORKCENTER`, *Change Management* area).
