

System Change Options and Client Change Options

LESSON OVERVIEW

In this lesson, you will learn about the system change options and client change options of an SAP system.

Business Example

As a transport administrator, you need to set the correct system change options for each SAP system and the correct client change options for all clients.

LESSON OBJECTIVES

After completing this lesson, you will be able to:

- Describe the system change options and client change options in an SAP system

System Change Options

System Change Option

Client Setting

Global Setting: **Modifiable**
