

The figure above shows some examples of SAP systems:

- A basic AS ABAP 7.52, used as SAP Fiori Front-End Server for an SAP S/4HANA Server system
- An SAP ECC 6.08 system
- An SAP S/4HANA 1511 Server system
- An SAP S/4HANA 1809 Server system

In this course, we use an SAP S/4HANA 1809 Server system, and an SAP Fiori Front-End Server 5.0 system, running on AS ABAP 7.52.
