## People love WordPress.com

“WordPress.com works really well with Google for a great SEO ranking. I can also embed YouTube videos, Google Maps, and other content easily and without any coding ability.”

**Quintin Lake**

“I looked into what other bloggers whom I admired were using, and the Cadillac of platforms is WordPress.com, hands down. The themes are breathtaking — even the free ones! — and all of the supporting infrastructure and information is top shelf.”

**Alexis Kanda-Olmstead**
