

### Learning Assessment

1. When using Software Provisioning Manager (SWPM) to install an SAP system you will execute some early steps in a certain sequence. Bring the following activities into the right sequence, regarding your work with SWPM.

*Arrange these steps into the correct sequence.*

- ☐ Start the installation routine
- ☐ Download latest version of the correct type of SWPM
- ☐ Identify the product and release that you want to install
- ☐ Extract the SWPM archive

2. Which file records all the notifications of every installation step?

*Choose the correct answer.*

- ☐ A `sapinst.log`
- ☐ B `dialog.xml`
- ☐ C `sapinst_dev.log`
- ☐ D `packages.xml`

3. Using the browser-based interface of SAPinst you can directly access important log files created during the installation process. Decide if true or false.

*Determine whether this statement is true or false.*

- ☐ True
- ☐ False
